March 3 2020

Dear TCCC members, patrons, staff and volunteers:

As we are aware of the health challenges regarding the COVID 2019 Virus, we are reminding all members, patrons and volunteers of TCCC to continue to maintain a healthy practice of good hygiene.

This is a good time to review preventative measures that we can all take to avoid the spread of respiratory viruses.

- Wash your hands often with soap and water. Hand washing strategies include washing with soap and water for at least 20 seconds or using a hand sanitizer that contains at least 60% alcohol if soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick, and keep sick children home as well.
- Cover your cough or sneeze, then immediately discard any tissues.
- Clean and disinfect frequently touched objects and surfaces.
- Seek treatment from a healthcare professional if you have persistent symptoms.

No cases of COVID 2019 have been reported in Tucson, but it's always smart to follow these practices to prevent the spread of any number of illnesses.

We are taking precautions inside TCCC in order to provide a healthy and clean environment for our patrons. These precautions include disinfecting surfaces that are used by members on a regular basis. A professional cleaning service comes in at least twice a week.

When serving and cooking food, we use latex gloves and hats.

The Center is actively open for all programs and events.

We are in close contact with Pima County Health Department and State health officials regarding this rapidly changing situation. As we receive updates that affect our community, we will pass them along to you.

Regards,

Peter Chan  
Tucson Chinese Association President
