March 12 2020

Dear Senior Members, Staff and Volunteers

Out of an abundance of caution, the Tucson Chinese Association board of directors has decided to suspend the Seniors programs until further notice. People over 60 – particularly those with other health conditions - are considered at highest risk for the COVID-19 coronavirus, and the vast majority of deaths attributed to the virus so far are of people in that age group. The board feels that taking this step and closing the Center on all activities for Tuesdays and Thursdays for now is the best way we know how to protect a population that is dear to our Center and that we want to do all we can to keep safe.

The board hasn't yet determined whether it will suspend all other programs or close the Center on other days. We will keep everyone informed.

Regards,

Peter Chan
TCA President
