

CHINESE MEDICINE IN AMERICA

(A "ZOOM" PRESENTATION)

FEATURING

TAMARA VENIT SHELTON

Books can be purchased at a cost of \$30.00 (Hardcopy) while supplies last:

Author of *Herbs + Roots: A History of Chinese Doctors in the American Medical Marketplace*.
Associate Professor of History, Claremont McKenna College.

An innovative, deeply researched history of Chinese medicine in America and the surprising interplay between Eastern and Western medical practice. Chinese medicine has a long history in the United States, with written records dating back to the American colonial period. In this intricately crafted history, Tamara Venit Shelton chronicles the dynamic systems of knowledge, therapies, and materia medica crossing between China and the United States from the eighteenth century to the present. Chinese medicine, she argues, has played an important and often unacknowledged role in both facilitating and undermining the consolidation of medical authority among formally trained biomedical scientists in the United States.
